How do you want to be involved?

As your local CVS, one of our goals is to ensure that voluntary and community organisations in the area have a strong voice and can influence policies and programmes which affect local communities.

We are often asked to help a range of agencies consult the voluntary and community sector about new developments or specific issues. We also encourage local organisations to get involved in planning and decision-making by taking part in relevant partnerships. To make sure that your voice is heard, we would like to know to what extent you would like to be involved in consultations and partnerships like these.
